

AP COLUMNA LUMBAR

LAT COLUMNA LUMBAR

R

A lateral X-ray of the lumbar spine. The image shows the vertebrae and intervertebral discs in profile. The spine is slightly curved to the right. The vertebrae are labeled with 'R' in the top left corner, indicating the right side of the patient. The image is somewhat blurry and has a high level of contrast, with the vertebrae appearing as bright white structures against a dark background.
